CAREER OBJECTIVE

Detail-oriented and highly motivated with a strong foundation in problem solving and analytical skills, seeking to transition into a dynamic role as a Full Stack Java Developer. Eager to leverage my technical background and passion for coding to contribute to innovative software solutions. Committed to continuous learning and staying abreast of emerging technologies to excel in a challenging and collaborative development environment.

EDUCATION

BTech

Aditya Institute of technology and management | CGPA-7.23

2019 – 2023

Tekkali, India

Intermediate

Aditya junior college | CGPA-7.42

2017 – 2019

HariPuram, India

SSC

Vivekananda vidya Niketan High School | CGPA-8.2

2016 – 2017

Mandasa, India

TECHNICAL SKILLS

- **Programming language:** - java.
- **Database:** - SQL.
- **Version Control:** - Familiar with GitHub.
- **Frontend Development:** - HTML, CSS and JS.
- **Frameworks:** Spring Boot, Spring Data JPA, REST APIs

SKILL HIGHLIGHTS

- Deep Knowledge on object-oriented programming in core java.
- Strong hands-on multithreading and collections.
- Worked on database systems like oracle.
- Having practical exposure on SQL queries, Joins.
- Knowledge on JDBC, Servlets and JSP.
- Good knowledge on fronted technologies like HTML, CSS and JavaScript.
- Ability to learn quickly, manage work independently and is a team player.
- Strong written and verbal communication skills.
- Ability work well under pressure, prioritize work and well organized.

CERTIFICATIONS

- I have successfully completed the front-end development course offered by a great learning academy.
- Java Full Stack Developer – 360digrii – Completed training in java, HTML, CSS, JavaScript, SQL, Spring Boot.

PROJECTS

Hospital Management System

Technologies: Java, SQL | Year: 2024

- I Developed an advanced Hospital Management System designed to optimize patient doctor matching for a specific date by meticulously verifying doctor availability, thereby ensuring 100% accuracy rate in scheduling.

- This system ensures 100% accurate doctor recommendations, significantly reducing patient wait times and enhancing healthcare efficiency.

Bank Aggregator Application

Technologies: Spring Boot, Spring Data JPA, SQL, AWS S3 | Year: 2025

- Developed a Bank Aggregator application to integrate multiple banking services and generate a summarized banking statement.
- Implemented RESTful APIs for seamless communication between client and server. Integrated AWS S3 for uploading and downloading bank statements.
- Allow users to download their bank statements from the S3 bucket. Convert the downloaded statements into java objects and stored these objects in the database.
- Implemented secure user authentication and authorization using Spring Security to ensure only authorized users can access and download their bank statements.

STRENGTHS

- Enthusiastic about interacting with diverse individuals.
- I am good at problem solving, logical thinking.
- Effective communication and interpersonal skills.

WORKSHOPS

- Participated in the **University Innovation Fellow** workshop at AITAM.
- Attended the **Talent Battle** workshop.

DECLARATION

I hereby declare that the above-mentioned information is true and correct to the best of my knowledge.

Place: - Hyderabad
